

YOUR MEMBERSHIP TO THE YMCA MATTERS NOW MORE THAN EVER.

Strengthening community is our cause.

Your membership to the YMCA has helped us support our community during the COVID-19 emergency. In difficult times, the YMCA uses our resources to offer positive solutions to community challenges. During this crisis, the YMCA has partnered with the counties that we serve to provide day camp for the children of First Responders/essential Healthcare Professionals who are caring for our communities on the front lines. We have created online meetings for our members to keep them connected and informed. We offered virtual social, recreational, and educational experiences to everyone for free to keep people active and engaged.

We know you have a choice to be a member of the Y.

We are asking you to consider sustaining your membership during this time by paying your membership fees so we can provide essential services to our community. We understand that not everyone is in a position to make this choice. If you can not be a sustaining member, please choose to put your membership on hold. Please do not cancel. We need to know you are with us and putting your membership on hold will let us know we are not in this alone.
